Subject: Revised Applications - FFMXD06.771D and FFMXD06.761B
Attachments: CBI_FFMXD06.761B_APP_INI_R01.pdf; CBI_FFMXD06.771D_APP_INI_R01.pdf

Joel,

Here are the revised versions of the Applications. Would you like me to try to submit them to Verify right away as well?

Best Regards,

Subject: FW: Cert requests for test groups : FFMXD06.771D and FFMXD06.761B

Joel,

I discovered some small errors in previous versions of these Applications. I am working on the updates now and will e-mail them directly to you today or early tomorrow (requires DF updates in the CSIs).

Here were the VERIFY screenshots with acknowledgements of "Accepted" receipt of the Applications, history of the transaction, and my profile.

Please let me know if there are any questions. I hope I am not making some simple error when I post them. I am definitely submitting them using the test group names.

Thanks

Best Regards,

Travis Henney (THENNEY)

Joel,

I am the lead on these test groups.

I submitted them to VERIFY on these dates:

FFMXD06.771D – 2/6/14

FFMXD06.761B – 2/11/14

I received “Accepted” responses from VERIFY. I’m not sure why you cannot find the applications. This is an issue...please let me know what other information I can provide for you to locate them.

I added the composite N2O value manually in the “Mfr Test Group Comments” on page 1 of the CSIs.

Please call me if you have any questions or cannot locate these.

Thanks

Best Regards,

Hi Al,

I cannot find the applications in verify for the test groups mentioned above. How was N₂O handled for these test groups? I do not see a standard or result in the CSIs.
